

Are you looking for an interesting internship this summer in July? Then Archol can offer an Osteology internship.

## Who are we?

Archol has been a leading archaeological company for more than 25 years where quality is of paramount importance. In our projects we always look for the balance between the interests of our clients and the opportunities for archaeology and society. Our office is located in the Faculty of Archaeology of Leiden University.

## What are you going to do?

In the eighties of the previous century, archaeological work was carried out in the 'Minderbroedersklooster' in Dordrecht. More than 1000 individual human skeletons from late and post Middle Ages have been recovered.

Research is currently ongoing to establish a database open to international professionals and students. Basic osteological characteristics are to be described and we offer the possibility to support this. The work initially consists of correctly identifying the fragmented and mixed up human skeletal parts and dental elements, distinguishment between left and right side and measuring bone lengths. If experienced, performing other analyses like sex and age estimation can be part of the internship as well.

## Who are you?

- (Bachelor/Master) student;
- For Leiden students: You have completed the BA2 seminar in Osteology. For others, you have a detailed knowledge of skeletal and dental anatomy and experience with taking bone measurements;
- Available at least 15 working days between 1<sup>st</sup> July and 26<sup>th</sup> of July 2024;

## What can we offer?

- An internship where you can increase experience in osteological analyses supervised by Steffen Baetsen;
- A (small) internship allowance;
- A beautiful workplace at the Faculty of Archaeology in Leiden.

## Interested?

Please let us know if you are interested. You can send us a (short) letter of motivation by e-mail. You can send the motivation to [info@archol.nl](mailto:info@archol.nl). Please direct the e-mail to Steffen Baetsen.

If you have any questions about this internship, please do not hesitate to contact us. We can be reached by phone; 06 36383991. Or by e-mail; [info@archol.nl](mailto:info@archol.nl).
