Manual Printer Deploy Client Linux: Ubuntu 22.04

pc-print-deploy-client[webprint.leidenuniv.nl].deb

After downloading the package for Ubuntu (see above):

 Open your terminal (ctrl+alt+t). Navigate to the location where you downloaded the package. In my case, it is in the 'Downloads' folder. Command: cd Downloads/ Is

2. Install the printer package. Command:

sudo dpkg -i pc-print-deploy-client\[webprint-t.leidenuniv.nl\].deb

3. Enter your admin password.

When the installation is complete, it should look like this:

Click on Papercut Print Deploy Client

5. Log in with your UCLN account.

6. After logging in, you will see this screen:

After logging in, the printers will be installed.

7. In your status bar, you will now see the Papercut icon.
 If you click on it, you will get the option to view the printer.

If you click on it, you will go to your printer settings and it should look like this:
